

Manufacturing Specialist

NWIRC is a catalyst for strengthening regional manufacturing – accelerating innovation, manufacturing transformation, and driving economic growth.

We are seeking an experienced candidate to accelerate our client's operational effectiveness. The position is full-time with competitive salary and benefits.

Qualifications include:

- bachelor's degree in engineering or operations management
- demonstrated experience in root cause analysis, manufacturing process and quality improvement
- effective communication skills with training program development and delivery capabilities and interest
- training, credentials, or experience with Lean Continuous Improvement, ISO 9001, SPC, FEMA, etc.
- effective project management and team engagement

Qualified candidates should send resume and cover letter to Gerry Schneggenburger at gschneggs@nwirc.org by December 3, 2019.

The NWIRC Is An Equal Opportunity Employer.
