Safety, Environmental, Human Resources & Insurance Consulting

-Update-

How to Safely Maintain Business Operations During COVID-19

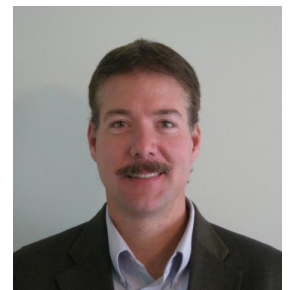

We are pleased to have safety expert, Todd Sturgeon, return for another COVID-19 safety update for more tips on keeping your employees as safe as possible.

In this free webinar, you will learn:

- Pandemic Safety Officer requirements
- Current PA and CDC requirements
- Managing positive and suspected cases
- Close contact employee protocols
- Return to work procedures
- Social distance business operation solutions
- Lessons learned

Presenter: Todd Sturgeon, Sturgeon Consulting

Safety expert, Todd Sturgeon, has a B.S. in Safety Sciences from Indiana University of Pennsylvania. He worked for over a decade in heavy manufacturing controlling injuries and overhead expenses for organizations such as Chamberlain Manufacturing and Anchor Hocking Glass. His manufacturing responsibilities included safety, environmental, maintenance, general supervision, corporate management, and human resources.
